## Special Designs

**Or Hand Made Designs of All Classes of Monumental Work, Mausoleums, Soldier Monuments, etc.**

Our large experience aided by able assistants and ample facilities, enables us to furnish a class of work equal to any and executed in an artistic manner and at rates as reasonable as is consistent with a high grade of work. We have been furnishing work for many of the leading wholesale and retail concerns in the United States and Canada for years, and all work entrusted to us will be treated as confidential.

## Mausoleum Designs and Plans

are our specialty and we pay special attention to proper construction as well as harmony and proportion. When required we can furnish complete plans and details to work from, also duplicate copies in blue prints or otherwise as required.

## Soldier Monument Designs.

Original work carried out on artistic and appropriate lines is our specialty in this class of work, as well as to furnish when required either miniature sketch models of the entire work or full-sized models of the details.

## Detail Drawings

are often necessary to insure the work to be executed in proportion, especially so of large and elaborate work or of any of the work published by us, as without them the work would often show distorted results.

## Blue Prints

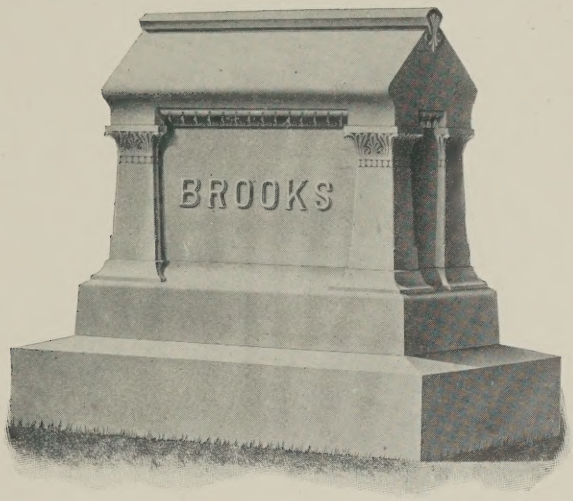
or any other duplicate copies of any scale or detail drawings or plans furnished by us at regular rates in addition to the regular charge for the drawings.

## Prices

of special designs and plans depend on the nature and amount of work required for each design, for which reason no definite prices can be given ; therefore, when in need of work, send us sketch photo or description, and we can give you definite prices. Designs furnished on paper, paper cloth or silk.

## Models, Statuary and Bronze Work.

We are prepared to furnish models of all kinds to order, and execute same in Marble, Granite or Bronze in a highly artistic manner and at reasonable rates.



No. 710 Copyrighted.

## Serial Photogravure Designs.

These designs are high grade reproductions of finely executed hand-made designs and show up equally as well and at about one-twentieth the cost. They are conceded by the trade in general to be the best designs published, as they contain original, practical and saleable designs principally of low and moderate cost.

Many dealers have our complete outfit of these designs and we have many standing orders to send on all new designs as soon as issued.

With each Series is furnished a price list, wholesale and retail, in popular granites, also three sizes to each job.

The retail list is very convenient for agents' use as it saves the marking of the designs with sizes and prices.

As most all manufacturers and wholesalers have these designs on hand the use of them saves time in making tracings, etc., as all that is necessary is to mention number when requesting estimates or otherwise.

See list of manufacturers having these designs on pages 14 and 15. For further particulars of each Series see following pages.
